Background. Many critical care nurses experience burnout; however, resilience shows promise as a potential solution to burnout. This study was conducted to better understand nurse burnout and resilience in response to workplace adversity in critical care.

Burnout and resilience in critical care nurses: A grounded ...

As a clinical instructor, I’m aware of my enormous responsibilities—to imbue nursing students with knowledge, teach them nursing skills, help them hone their critical thinking ability, and acculturate them to the profession by conveying what it means to be a nurse. These responsibilities are both challenging and rewarding. As I meet each new clinical group, I often take the time to reflect ...
