OMB has defined two special categories of influential information, Influential Scientific Information (ISI) and Highly Influential Scientific Assessments (HISAs). For issues related to the CDC/ATSDR Peer Review Agenda please contact: Information Quality Peer Review
On December 16, 2004, the Office of Management and Budget (OMB) issued its Final Information Quality Bulletin for Peer Review. The Bulletin provides for agencies to peer review certain types of information before the information is disseminated to the public.

Information Quality Guidelines - opm.gov
These guidelines are required by a US statute enacted in 2001 called the Data Quality Act and also known as the Information Quality Act ("IQA"). OMB states that it prepared the peer review Bulletin pursuant to OMB's authority under the IQA. The peer review Bulletin provides detailed guidelines for peer review of influential scientific information.

for Peer Review” OMB has today issued a bulletin applicable to all departments and agencies entitled “Final Information Quality Bulletin for Peer Review.” This Bulletin establishes government-wide guidance aimed at enhancing the practice of peer review of government science documents.

OMB indicated that “quality” encompasses elements of utility, objectivity, and integrity, and said agencies can generally presume that data are “objective” if they have been subject to an independent peer review process. In April 2004, OMB provided Congress with a report on the implementation of the IQA during FY2003.
