What is science? Science is the concerted human effort to understand, or to understand better, the history of the natural world and how the natural world works, with observable physical evidence as the basis of that understanding 1. It is done through observation of natural phenomena, and/or through experimentation that tries to simulate natural processes under controlled conditions.

1. Build your future around a product, not a person. Too often in the church, we build the mission around a person, not a product (our mission). And before you start slinging stones at well-known megachurch pastors, just know that far more often, small churches are built around the leadership of their pastor who does ‘everything’ (a problem I help churches tackle here).
