Whale Done! explores how positive reinforcement techniques used with killer whales can have a dramatic effect on our human relationships both at work, and at home.

**Ken Blanchard book, Whale Done!**
Whale oil is oil obtained from the blubber of whales. Whale oil was sometimes known as train oil, which comes from the Dutch word traan ("tear" or "drop"). Sperm oil, a special kind of oil obtained from the head cavities of sperm whales, differs chemically from ordinary whale oil: it is composed mostly of liquid wax. Its properties and applications differ from those of regular whale oil, and it ...

Whaling is the hunting of whales for their usable products such as meat and blubber, which can be turned into a type of oil which became increasingly important in the Industrial Revolution. It was practiced as an organized industry as early as 875 AD. By the 16th century, it had risen to be the principle industry in the coastal regions of Spain and France.

It’s a whale of a tale. Fishermen in the Barents Sea near the tiny fishing village of Inga in Arctic Norway saw a very odd creature last week: A white beluga whale fitted with a tight harness. The whale was friendly, pushy even, swimming right up to boats, trying to pull straps and ropes from the […]

History of Mincemeat Pie: 11th Century - The Christmas pie came about at the time when the Crusaders were returning from the Holy Land. They brought home a variety of oriental spices. It was important to add three spices (cinnamon, cloves and nutmeg) for the three gifts given to the Christ child by the Magi.
